Take-off and landing accidents as well as low level maneuvering and stall/spin accidents claim a number of pilots every year. These are completely preventable accidents. This seminar will focus on the basics. Additionally the "best kept secret in aviation" Civil Air Patrol will be here to brief on CAPabilities. The Columbus AFB will also sharing their mid-air collision avoidance presentation.

*Directions:* Seminar will be held upstairs in main terminal building. If you fly in park at RAS and tell them you are heading for the FAA safety seminar.

*Message from the National FAASafety Manager:*  
**Start FAASafety CFI Workshops any time! Find Workshop #2 in SPANS.**
